ZRAY Fishman II series boat is a great choice for fishers and weekend camping lovers. It is simple and perfect for lazy boating in lakes and rivers and sun tanning.

ZRAY BOATS

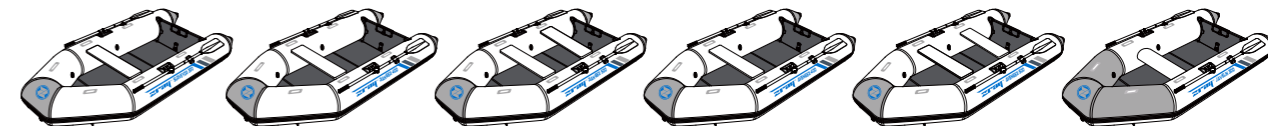

- Especially designed for fishing. Standing up allows for better visibility of fish and sneak up virtually silent.
- It can provide excellent mobility to quickly and easily discover and reach new spots where the fish are – they are even more agile than kayaks
- There is more freedom of movement on a SUP and you have a better field of vision of the fish swimming around you
- 32" width for plenty of space to move around while casting or reeling in "the big one".
- Safe and comfort – 6" thickness makes the board will not draw deep, so it gets better stability during paddling.

ZRAY bring the boats with ultra stability, portability and durability. These tough, rugged inflatable boats are light, easy to set up and less expensive to motor and far more portable. ZRAY DELUXE offers an outstanding performance for exploring and cruising along the coast and watching the sunset.
