Special Features

- 10-year Powerline warranty
- Extra long twin carriages have long-life patented Super-Glide nylon bushings for frictionless movement and performance over 2" square, high polished chrome guide bars
- The ladder-type mainframe features full length, heavy duty 12-gauge square pillars with 14 cross member Lock-Out Points
- Dual-lock Safety Spotter Catch System prevents the bar from pinning the user in a max-out situation by simply turning the pivot sleeve only 15°

PSM144X**Powerline Smith Machine**

Uses four 2"x2" 12-gauge steel pillars to support and guide the patented Super-Glide carriage during your most vigorous sets. 14 lockout positions and adjustable safeties assure the lifter ultimate safety while striving for greater muscle gains. PowerLine has taken the best equipment out of the health club and engineered it to their own uncompromising standards. Best of all, we made it affordable!

Dimensions: 76"W x 45"D x 80"H
