A reliable and efficient aid for swim training

Fantastic training aid to help beginners overcome fear, facilitate kicking drills, and master balance in the water.

Generate fun for both parents and kids

Boost the interaction between family members and make water games more fun and appealing.

Remarkable buoyancy to maximize water fun for people of all ages

Rated to hold up to 100kgs (220.5lbs).

Accessible to everyone who wants to experience the joy of swimming

Simply rest your chest on the kickboard, press and hold the buttons on both sides to start. Free yourself from the worries of physical strain and swimming technicalities.

Two-speed options

Quickly switch between 0.6m/s and 1m/s to seek new thrills underwater. Low-speed mode for beginners to overcome the fear of swimming while the high-speed mode is to experience the excitement of water thrills.

Patented technology to ensure perfect safety

Innovative built-in dual motors, emergency motor stop in 0.2 seconds with foreign objects. Industry-leading sealing and waterproofing technology, the battery allows users to swap easily.

Stylish, eye-catching, and award-winning design

The smooth round body strikes a perfect balance between the effects of gravity and buoyancy, making Swii a "tumbler in the water" while also being stable against wave flows.

Smart features controlled via the mobile app

Effortlessly control child safety lock, change speed, personalize indicator light settings, start self-cleaning, etc. Simply by tapping on the mobile app.

Swii Electronic Kickboard

Ride the Fun

Specifications

Dimensions	L550 × W375 × H135mm (L21.65 × W14.76 × H5.31in)
Host weight	3800g (8.37lbs)
Speed	1m/s (2.24mph) at high-speed, 0.6m/s (1.34mph) at low-speed*
Battery life	98wh: 30mins, 158wh: 45mins*
Battery weight	98wh: 870g (1.65lbs), 158wh: 1100g (2.42lbs)
Ages	6+*

- * The rated speed is the result of product test results and may be affected by user, user's swimwear and equipment, water conditions, etc.
- * Battery life is for reference and based on product test data. It is the average value of the maximum time that the user can operate the scooter according to general usage (discontinuous operation) when the battery is fully charged.
- * 158Wh lithium battery option is available to users as an upgrade.
- * Minors must be accompanied by a parent or guardian and wear appropriate safety equipment while using the kickboard.
